### Achievements

- Cleared Afcet examination 2 times in row.
- Been able to stay full 5 days at afsb varanasi and afsb dehradun
- And get the chance to attend the prestigious ssb interviews at these locations.
- Organized multiple events and quizzes in college.

### Projects

- **Childhood Snake Game (<https://brave-aditya.github.io/snake>)**

Basic game of snake that we used to play during our childhood is reimaged and transformed into a responsive web page with all basic functionality made by using react and w3.css and deployed using github pages.

- **Weather Application (<https://brave-aditya.github.io/weather>)**

A responsive web page which can be used to check the weather forecast of any city of the world it also has some additional features and is made by using react, axios, weather API, css grid etc. and deployed on github pages.

- **Online Public Chatrooms (<http://aditya-chatapp.herokuapp.com>)**

It is also a responsive web page made by using react and sockets and some other stuff also it is deployed by using heroku. It can perform all basic operations of a real time chatting application through this many users can chat simultaneously with each other using a chat room.

### Personal Details
